

**Sunninghill**  
PREP SCHOOL DORCHESTER

## **AIM, VISION, MISSION AND CORE VALUES**

These statements share the clear principles on which our school has and will continue to develop and thrive. They will inspire and guide our journey as a community together.

Our **vision** is to be an exceptional and much sought after small, family co-ed Prep School in the heart of Dorset's County town, Dorchester.

Our **mission** is to provide an outstanding, individualised and holistic education in a stimulating learning environment that prepares all its pupils for a happy, healthy and fulfilling life.

Our **aim** is to inspire each and every individual to have the confidence and desire to achieve their full potential within a nurturing, supportive community that empowers pupils to be themselves and do their very best.

We forge strong bonds of trust within our community and we want everyone to feel valued and respected, full of self-belief and empathy, understanding of the needs of others.

Our pupils will share responsibility for target setting their endeavours, performance and behaviour. Highly professional teachers and assistants will work alongside motivated children, ably supported by dedicated parents at home. Every individual will have the opportunity to discover their hidden talents.

Our **core values** are:

**Individual:** Pupils will have the confidence to be themselves and have the right to be treated as individuals. They will know their rights and their responsibilities, showing respect and tolerance for others.

**Distinctive:** As a school we will offer opportunities for every pupil to achieve their maximum potential through a broad and exciting educational offering which gives choice for their future education.

**Family:** We value highly a positive working relationship with each extended family within our community and appreciate the many benefits that arise from encouraging parents to support learning at home and in school.
